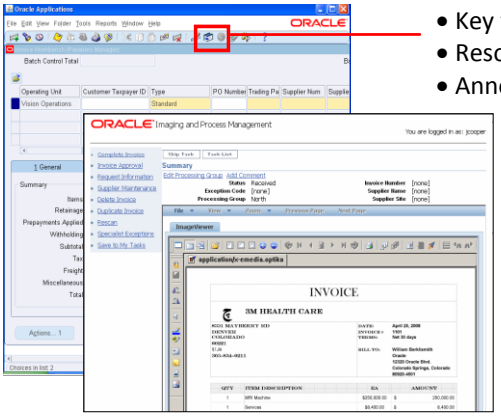
ARCivate

ORACLE®

Oracle A/P Automation IPM Solution

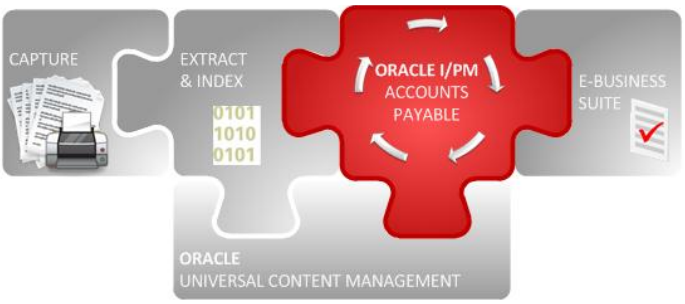
Tightly Integrated User Experience
One Click access to imaged documents



Viewer and Task List is launched from ERP UI to:

- View task and image
- Key from image
- Resolve exceptions
- Annotate invoices

Oracle I/PM automates the paper-intensive invoice and AP process by coupling scanning, capture and imaging technology with workflow. Oracle I/PM is the imaging platform for Oracle Applications, providing out-of-the-box integrations with E-Business Suite and PeopleSoft, to deliver a native user experience that brings imaging capabilities to any ERP applications module.



This allows organisations with ERP systems that deal with massive transactional processes like AP to automate the processes, provide in-context processing of the images and exception management capabilities. Oracle I/PM enables business users to efficiently complete transactions with the utmost accuracy and ease, directly from familiar applications. As a result, departments can dramatically accelerate the speed of operations, and reduce costs related to paper storage and handling.

ARCivate's team of specialists can help you get the most out of Oracle's A/P Automation:

★ Decrease your invoice processing costs by 60% - and decrease exception handling time & costs by 70%

Oracle I/PM features:

- Automates high-transaction processes such as invoice entry and approvals
- Our OCR Technology does intelligent free-form recognition – no need for templates
- Imaging and Process Management provides full workflow and approvals around your business rules
- Incorporates native ERP processes with key exception handling abilities
- Coding of non-PO invoices
- Email notifications of task assignments
- Automatic re-assignment, delegation or escalation
- Seamless out-of-the-box integration into E-Business Suite
- Accessible to users outside the E-Business Suite/PeopleSoft environment
- Retrieve and audit application content
- Enterprise-class 'Imaging Platform' automates more processes such as HR or expenses

ARCivate can help your business realise the benefits:

- Decrease transaction cycle times improving customer and colleague responsiveness
- Improve efficiency by eliminating paper handling and potential loss due to human error
- Lower the Procure to Pay processing time from weeks to days
- Speed approval and administration times
- ROI in less than 12 months
- Reduce physical storage space and costs related to transportation and handling
- Improve partner and supplier interaction through increased transparency and real time reporting
- Strengthen your business's compliance
- Use of imaging facilities reduces time spent on data entry
